TITLE Equal Access-Equal Opportunity Data for Florida Community Colleges: Fall 1977 and Fall 1978.
INSTITUTION Florida State Dept. of Education, Tallahassee. Div. of Community Colleges.
PUB DATE May 79
NOTE 95p.

EDRS PRICE MF01/PC04 Plus Postage.
DESCRIPTORS *Black Students; Caucasian Students; Community Colleges; *Employment Trends; *Enrollment Trends; *Females; *Junior Colleges
IDENTIFIERS *Florida

ABSTRACT

Tables present 1977 and 1978 data, collected by the Department of Health, Education, and Welfare, that trace the progress of Blacks and other minorities in Florida community colleges. Tables 1 through 3D describe student enrollment in terms of college-level headcount as of the end of the drop/add period, recent high school graduates, and acceptance rate (virtually 100% for all races, though the enrollment rate dropped considerably for all races). Tables 4A and 4B summarize financial aid distribution, while 5A, 5B, 6A, and 6B indicate distribution by race and categories of aid. Tables 7 through 13B present data on associate of arts, associate of science, and associate of applied science degrees, technical certificates, certificates of applied science, and certificates of training; and on the students who earned them. The remaining tables, 14 through 24B, present various data on employees of Florida community colleges, emphasizing minorities and females as percentages of the total; breaking down the information by race, sex, type of employment, length of contract, and whether full-time or part-time; displaying figures for full-time executive, administrative, and managerial employees, for full-time instructional employees, and for all other professional full-time employees; and providing similar information for part-time employees. (AYC)

The tables in this report present data collected by the U. S. Department of Health, Education, and Welfare. The survey instruments used were the Higher Education General Information Survey of the National Center for Educational Statistics (HEGIS) and the Report of Progress in Implementing State-Wide Higher Education Desegregation Plans of the Office for Civil Rights (OCR). The collecting of these data was coordinated by the Division of Community Colleges, Florida Department of Education, as part of compliance with Florida's Commitment to Equal Access and Equal Opportunity in Public Higher Education.

Tables present data for two consecutive years and the reader must note carefully the dates on the tables. Most data are collected "as of" October of the year designated. However, some tables present data for the academic year just preceding the October date of reporting.

The primary purpose of this report is to allow the reader to note the progress of blacks and other minorities in Florida community colleges. The following brief comments are intended to clarify the tables and are not intended to constitute an analysis of the data.

Tables 1 through 3D describe student enrollment in Florida community colleges. Table 1 presents college level headcount data as of the end of the drop/add period. The breakout used allows the reader to compare among groups within a given year and to compare a particular group's progress across two years.

Tables 2A and 2B present Fall 1977 and Fall 1978 first-time in college students who were recent local high school graduates as a percent of all recent local high school graduates. The final column (Parity) measures the differences between these percents of blacks and whites. When the percents are equal, the value for parity would be zero.

Tables 3A, 3B, 3C, and 3D show that the proportions of applicants who were accepted (Acceptance Rate) is virtually 100% for all races. However, the proportions of those accepted who ultimately registered (Enrollment Rate) drop considerably for all races.

Tables 4A and 4B are summaries of all financial aid dispensed for the academic years indicated. Tables 5A and 5B indicate the various distributions among the races (column percents are shown) whereas Tables 6A and 6B indicate the various distributions among the categories of aid (row percents are shown).

Tables 7 through 13B present data on degrees and other awards earned by Florida community college students. Table 7 presents all AA and AS degrees for the academic year 1976-77 and 1977-78 emphasizing black recipients as percents of the totals. Tables 8A and 8B show the same detail for all races for the AA degrees only, whereas Tables 9A and 9B present this for AS degrees only. Tables 10A through 13B continue in the same manner for the associate of applied science degrees, technical certificates, certificates of applied science, and certificates of training.

The remaining tables, 14 through 24B, present various data on employees of Florida community colleges. Table 14 shows all employees for Fall 1977 and Fall 1978 and emphasizes minorities and females as percents of the total. Tables 15A and 15B display the same data with breakouts by race, sex, type of employment, length of contract (work year), and whether full-time or part-time. Tables 16A and 16B display data for full-time executive, administrative, and managerial employees for 1977 and 1978; Tables 17A and 17B show full-time instructional employees; and Tables 18A and 18B show all other professional full-time employees. Tables 19A through 21B show the same information as Tables 16A through 18B except that they include part-time as well as full-time professional employees.

Tables 22A through 24B are presented in the same manner as Tables 16A through 21B except that the entries show new hirings in the professional categories.
